

## READ ALL ABOUT IT !

Happy February!

It's a short month, with lots of things to do.

Groundhog's day is on the 2nd, lets hope he doesn't see his shadow.

The weather has been good lately, but we know this is Minnesota and we can get anything anytime.

Remember if the district closes school, we close.

We also like going outside when the weather is nice.

Send snow boots and pants, hats and mittens.

### DID YOU KNOW ?

That the Northrop (Ericson) building is 100 years old this year!

Thanks so much to those of you who call or email to let us know when your child will not be in.

It saves so much time in tracking down children who do not show up as expected. It's a load off our minds when kids are safe and accounted for.

### Illness Facts:

When should my child stay home?

If he/she has had an oral temperature of 100 degrees or higher in the past 24 hours.

If he/she has vomited 2 or more times in the past 24 hours.

If he/she has diarrhea, an increased number of stools or has stools that are loose.

He/she has an illness (severe wheeze, severe cough etc.) that prevents him/her from participating in routine activities.
