All about the magnets and sticks:

We have started a new system at Northrop to add to the safety of your children. You will notice the system located outside the room with 2 boards with magnets and a table between with sticks. There will be a magnet board in with staff in each space that is open. When children go to a space that is open they bring there magnet to the staff with the magnet board and place a stick with the place they are going to in their name pocket by the room.
