March Counts!

Did you Know?

March was actually the first month of the calendar year until the ancient Romans made January the first month, and pushed March to the 3rd month. Notably, this is the month where the anticipation of Spring is truly evident. The days are longer and the official start to daylight savings time begins March 8, 2015.

Minneapolis Kids welcomes March and its uniqueness. How many languages can you say March in? Which two languages pronounce March the same way?

- Chinese (Mandarin) - Sanyuè
- Danish - Marts
- French - Mars
- Italian - Marzo
- Latin - Martius
- Spanish—Marzo
