

# Words of Windom

April 2015

## MPLS Kids News

**Fall registration will open for enrolled families at noon on**

**Monday, April 20th!**

We are projecting many sites will fill up fast, so please be aware of the date to register. Please contact the MPLS Kids Main Office if you have any questions about policies for registration.

Registration will open to all families on **Monday, May 4th** at noon.

## Professional Development

In addition to having all of our staff First Aid & CPR certified, MPLS Kids strives for continuing quality and offer professional development opportunities for staff to learn about new trends in childcare in order to have our staff grow.

Kate will have the special opportunity to attend a STEM (Science Tech Engineering and Math) conference hosted by “Ignite Minneapolis” in mid-April.

This will be centered around progressive ideas and activities to implement in out-of-school time, so it will be great for

Kate to attend!

engineering • math

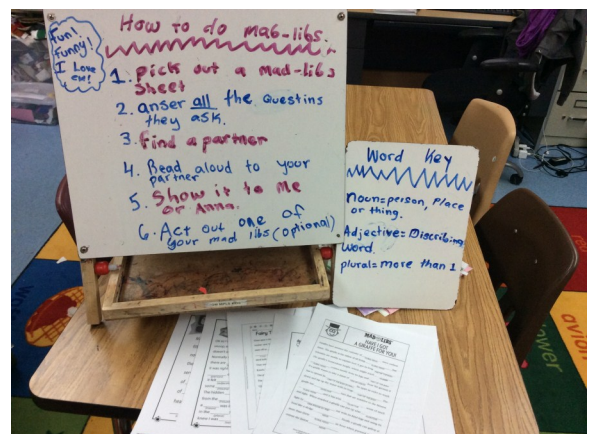

## Highlights from March

### Country of the Month: Francia

Parlez-vous français? We not only speak Spanish at Windom, but enjoy learning other languages, too! The kids said “Bon appétit!” to some tasty French foods. They learned all about the most famous landmarks and played a traditional French game called Bilboquet.

### Featured Student-led Project: Ronni's Mad Libs

Hopefully you can see in the photo the planning and organization that went into this project! Ronni really led a fun activity!
